Piper Hancock and Sarah Davis, both 2nd graders, recently decided to celebrate their birthdays in an extraordinary way!! Piper and Sarah chose NOT to get presents for their birthdays, but instead asked all of their friends to JOIN THEM in being **ORDINARY HEROES** and they collected money for the orphans in Ethiopia!!

They collected \$370 to be exact!!

These kids should be in their normal birthday mode and excited and expecting to receive their gifts from their party like any child would. BUT instead they were excited to get all their friends together and see what a big difference they can make in the lives of others.

These girls took Rachel's Challenge to heart and they have caused quite a chain reaction!!!

We are so proud of you Piper and Sarah!!
